Novelties

and Specialities

for

AUTUMN

PLANTING

1937

Sold only in Sealed Packets bearing our
Registered Trade Mark as above.

In presenting this, our 1937 list of Novelties and Specialities for Autumn planting, we beg to draw customers special attention to the desirability of ordering early. It is not possible to produce in unlimited quantities strains of new introduction or high-grade quality, and as bookings on these lines are invariably heavy, it is our custom to send to our friends this early price-list to enable the early placing of orders. Our large, fully-illustrated General Catalogue will be sent you in February.

New Anemone

“Blue Admiral”

This new variety of St. Brigid Anemone carries the essential perfections of

**LENGTH & STRENGTH
OF STEM,
SIZE OF FLOWER, &
BRIGHTNESS OF
COLOR;**

in “Blue Admiral” we have produced the ideal Anemone for growing for market.

The stems are long and of exceptional substance—a point which market growers will appreciate as invaluable.

**THE FLOWERS ARE
ALMOST TWICE THE
SIZE OF THE AVER-
AGE STRAIN OF
ST. BRIGID.**

The blue color is strong and bright and the free-flowering propensities and robust nature of the plant makes it especially valuable for planting either in rows or in massed formation in the garden.

New Ranunculus

“Claremont” Super Hybrids No. 9

SPLENDID NEW GIANT DOUBLE FLOWERING STRAIN.

Comparative tests which we have conducted during the past few years have shown the “Claremont” Hybrids to be very definitely **THE FINEST STRAIN EVER INTRODUCED.**

No other plants in commerce can produce such a riot of color as this remarkable “Claremont” Ranunculus.

It is **INDISPENSIBLE FOR EXHIBITION**, and is **undoubtedly the largest flowered variety in cultivation**, huge flowers four to five inches across being produced in such profusion that the plants are literally hidden. The color range, which is the most varied we have yet offered, embraces pure white, pinks and yellows in all shades, brilliant scarlets, vivid apricots, and a full range of all shades incidental to these colors.

Notwithstanding immense size, the flowers are in no way coarse and the general quality is superb. Exceptionally heavy crops of flowers are obtained and for either exhibition purposes or garden decoration **THE STRAIN STANDS WITHOUT A PEER.**

ANEMONE

“Amethyst Beauty”

We have, after much careful re-selection, secured another beautiful St. Brigid Anemone which we feel sure will win the unanimous approval of our clients.

ANEMONE “AMETHYST BEAUTY” introduces a valuable addition to our already world-famous collection of “Claremont” Anemones.

The color is a distinct shade of rich lavender rose. The exquisite blooms are full and of perfect form, being held erect above the foliage on strong clean stems.

ANEMONE

“Scarlet Emperor”

An outstanding Anemone of the GIANT SINGLE FLOWERED type. The VIVID SCARLET FLOWERS, often up to 6½ inches IN DIAMETER, are borne in profusion on long clean stems reaching as far as TWO FEET ABOVE THE FOLIAGE. Since we first introduced “Claremont Scarlet Emperor” the strain has had constant re-selection and now is the acme of perfection.

ANEMONE

“Rose of Claremont”

(GIANT SINGLE TYPE)

A giant single flowered Anemone of a delightful shade of Lavender Rose. When first open, the flowers are slightly suffused with a deeper tone on edge of petals. The flower stems are strong and wiry and carry the flowers well above the foliage of the plant.

RANUNCULUS

“Claremont” Super Hybrids No. 5

(Award of Merit, Nurserymen & Seedsmen's Association of Victoria.)

The Committee of Inspection, which recommended the granting of this Certificate of Merit, stated:

“We consider the new strain of Ranunculus, known as the “Claremont” Super-hybrids, to be the best we have yet seen for constitution of plant, harmony of color, form and size. All inferior quality and poor coloring have been carefully eliminated.”

The “Claremont” Ranunculus Super-hybrids No. 5 are the best obtainable in the World. No other strains have been introduced that are equal in quality to these magnificent hybrids. The mixture of color embraces all shades of cream, yellow, orange, tango, scarlet, crimson, and the beautiful flaked varieties are also prominent.

The robustness of constitution and long flowering qualities place this strain in the highest possible position and it is recognised as the leading strain of Ranunculus.

Many other strains of Ranunculus on the market to-day have had the “Claremont” Ranunculus Super-hybrids introduced into them. This can be seen and is proved beyond all doubt as a large percentage of the blooms are distinct No. 5 type.

“Golden Glory”

Bright yellow flowers always strike a distinct note in any decorative scheme. Ranunculus “Golden Glory” is a strain comprised of mostly bright yellow shades with an intermingling of flaked varieties. The demand for this attractive strain has increased rapidly since its introduction several years ago. **This popularity is due to the vigorous habit of growth and large size of the blooms** which are fully exhibition size. Plant this strain for a brilliant garden display.

SEED: Per Packet, 2/6.

RANUNCULUS

“Bonnie Lassie”

Pink flowers are always in large demand, and we have now a strain which is admirably suited for this requirement. It is a strain comprising of mostly rose-pink shades, going on to light pinks. For indoor decoration it is superb, the flowers will last for a considerable time.

When planting Ranunculus “Bonnie Lassie” we would recommend the selection of a bed protected from the worst of the hot winds in summer as the flowers are more readily finished by any adverse weather conditions. This strain is a distinct selection of all the most wanted pink shadings and is undoubtedly one of the finest for indoor decoration.

BULBS:

Per Dozen, 2/6; Per Twentyfour, 4/9;
Per Fifty, 9/-; Per Hundred, 17/6.

SEED: Per Packet, 2/6.

“Huntsman”

A brilliant mixture of mostly bright red shades. We have greatly re-selected this variety and are more than satisfied that it will meet with a large demand from flower lovers. The robust plants yield a profusion of first-class blooms for a considerable time, making a brilliant garden display. An excellent cut flower rivalling many other flowers for indoor purposes.

BULBS:

Per Dozen, 2/3; Per Twenty-four, 4/-;
Per Fifty, 7/6; Per Hundred, 14/-.

SEED: Per Packet, 2/6.

“Sunset”

Aptly named because of its beautiful shadings. Few indoor color schemes are designed without the inclusion of the rich autumn tonings.

Ranunculus “Sunset” is admirably suited for this purpose, the rich colorings range from terracotta, brick-red, apricot down to soft fawns of a distinct autumn tone. This strain will last far longer in bloom than other varieties as it is not so easily affected by the adverse weather conditions. Robust in growth, producing large flowers borne on long stems make it a decided acquisition for decorative purposes.

We have every confidence in recommending this strain to you for any purpose whatsoever. As a garden display Ranunculus “Sunset” ranks among the first.

SEED

TWO NEW SWEET PEAS

WINTER-FLOWERING.

“Burpees Orange”

Clear orange, bright and brilliant. This outstanding new color in winter-flowering Sweet Peas is destined to become very popular. The flowers are well proportioned, and freely borne on long substantial stems. A Sweet Pea that is decidedly different.

1/- per Packet.

SPRING-FLOWERING.

“Orange Flame”

The deepest orange colored Sweet Pea grown. Plants are vigorous and free-flowering. Entirely distinct in color and specially beautiful under artificial light. “Orange Flame” is sure to be admired for its unusual charming beauty.

1/- per Packet.

CALENDULA

“Orange Shaggy”

The petals are long and very fringed and each flower is formed in an irregular but very attractive manner, resembling the Chrysanthemum. The color is deep rich orange, with a slightly lighter centre. The plant is vigorous and the flowers are borne on long stiff stems.

1/- per Packet.

PANSY

“Claremont” Special Exhibition Strain

The Finest Pansy in cultivation saved only from the largest and best shaped flowers of the richest colors. It is impossible to convey an adequate idea of the delightful variations in color and marking of the very handsome flowers produced by our unrivalled strain.

CONTINUED SUCCESS ON THE SHOW BENCHES IS BEING ACHIEVED WHERE FLOWERS OF THIS STRAIN ARE EXHIBITED

SEED: 3/6 Per Packet.

CINERARIA HYBRIDA GRANDIFLORA

“Claremont” Marvel Strain

CHOICE RICH COLORS MIXED.

A first-class strain of sterling merit. The flowers are of perfect form, large size, and great substance, rendering it, without a doubt, one of the finest strains in existence, the habit being extremely robust and compact.

SEED: 2/6 Per Packet.

STOCK

“Claremont” Giant Perfection

A wonderfully fine type of the largest-flowering Ten-week Stocks. Of strong growth and branching habit, very large and fully double flowers, the plants growing to a height of 15 to 18 inches. Choice mixture of the finest re-selected colors.

SEED: 2/6 Per Packet.

ICELAND POPPY

Stinton's “Claremont” Giants

ART SHADES MIXED.

A large flowered and strong growing strain of Iceland Poppy, growing twice the height and yielding flowers twice the size of the original. The colors are very rich and embrace a wide range of bright selfs, dual tones and art shades.

SEED: 1/6 Per Packet.

SEED

LUPINUS POLYPHYLLUS

“Claremont” Imperial Hybrids

FINEST MIXED.

This strain, without a doubt, is the finest yet offered, and will prove to be a decided acquisition to any garden. Tall growing and elegant, the plants show off their massive heads of flower to perfection. The extensive color range embraces red, purple, pink, buff, yellow, lavender, white and various shades incidental to these colors, together with some very fine two-toned effects. Robust in growth, and sweetly perfumed.

SEED: 2/6 Per Packet.

DELPHINIUM

“Claremont” Hybrids

“Claremont” Delphiniums come to you acknowledging no peer. The clear cut, massive individual flowers are borne erect on long solid spikes often exceeding 3-feet length of massed flower heads. The color range is exceptionally fine, embracing all the best of Delphinium shades, ranging from delicate sky blue, rosy mauve, lustrous satin pink, corn-flower blue, through all dual tones and brilliant blues to rich rosy purple and dark navy blue. Either for general garden decoration or exhibition purposes, the “Claremont” strain cannot be excelled.

SEED: 2/6 Per Packet.

SCHIZANTHUS MAXIMUS

Stinton's Large-Flowered Hybrids

A remarkably fine strain, the flowers of which show an unusually wide range of colors, including shades of yellow, apricot, pink, salmon, carmine, crimson, mauve, and purple, in various markings and combinations.

SEED: 2/6 Per Packet.
